

10/4/07

Department of Animal Science
FALL 2007 SEMINAR SERIES

Weir Room, 2154 Meyer Hall 12:10pm-1:00pm

<u>DATE</u>	<u>SPEAKER</u>	<u>TITLE</u>
Oct. 8	OLIVER FIEHN UC Davis Genome Center Host: Logan Smith	Metabolic profiling for phenotyping: genotype x environment interactions in animals
Oct. 15	SUE DeNISE Vice President of Genomic Research MMI Genomics Inc. Host: Kathryn Jackson	Developing commercial diagnostic genetic tests for cattle and canine
Oct. 22	RUTH GUSTFASON Librarian Subject Specialist, UCD Host: Mandi Finger	Key Library Resources/Services for Animal Science
Oct. 29	STOYAN PETKOV Department of Animal Science, UCD (Exit Seminar: MCIP Graduate Group) Host: Tom O'Hare	Porcine primordial germ cells: epigenetic reprogramming and serum-free culture
Nov. 5	JIM CULLOR Director, Veterinary Teaching and Research Center, Tulare Host: Kathryn Jackson	TBA
Nov. 19	RICARDO VERDUGO Department of Animal Science, UCD (Exit Seminar: Genetics Graduate Group) Host: Juan Medrano	Genetic dissection of growth and obesity traits in mouse congenic strains using transcript profiling and high density mapping
Nov. 26	CAIQIAO ZHANG, SONGHUA HU JIANYI SUN and NINGYING XU Zhejiang University Host: Trish Berger	Ongoing livestock research at Zhejiang University
Dec. 3	MATT BYRNE Executive Vice President California Cattlemen's Association Host: Logan Smith	Status of California's Cattle Industry
