

DEPARTMENT OF ANIMAL SCIENCE
FALL 2008 SEMINAR SERIES
Weir Room 2154 Meyer Hall 12:10pm-1:00pm

<u>DATE</u>	<u>SPEAKER</u>	<u>TITLE</u>
Sept. 29	ANDY SINGSON Associate Professor Waksman Institute & Rutgers University	Every sperm is sacred: gamete activation and fertilization in <i>C. elegans</i>
Oct. 6	SEMINAR HOLIDAY	
Oct. 13	ALAN BOWER Livestock/Natural Resources Advisor, County Director, Humboldt County	Providing Research and Programs for Cooperative Extension
Oct. 20	PAULA GASPAR Department of Animal Production and Food Science, Universidad de Extremadura	Economic and Management Characterization of Livestock Systems in the Spanish Rangelands (Dehesas)
Oct. 27	JOHN HODGES Formerly Professor of Animal Genetics University of British Columbia & Leader of Animal Breeding and Genetics, FAO	Cloned livestock for food: benefits and hazards
Nov. 3	MATT CARMICHAEL Lieutenant, UCD Police	Safety Seminar: Active Incident Responses
Nov. 10	INGRID CORNAX EDWARDS Department of Animal Science, UCD (Exit Seminar: Immunology Graduate Group)	The Interactions of <i>E. coli</i> and Egg Yolk during Egg Yolk Peritonitis in the Chicken
Nov. 17	XUNDE LI Western Institute for Food Safety and Security, UCD	Cryptosporidium from ground squirrels and public health
Nov. 24	RUBEN ALMARAZ Department of Animal Science, UCD (Exit Seminar: Biophysics Graduate Group)	Surface Plasmon Resonance Analysis and Computational Modeling of Protein-Carbohydrate Interactions
Dec. 1	DOTTIE BRUNDIGE Department of Animal Science, UCD (Exit Seminar: Genetics Graduate Group)	The Impact of Human Lysozyme Transgenic Milk on Health and Response to Immune Challenge in Young Pigs
