

DEPARTMENT OF ANIMAL SCIENCE
FALL 2011 SEMINAR SERIES
 Weir Room 2154 Meyer Hall 12:10pm-1:00pm

DATE	SPEAKER	TITLE
October 3	JIM FADEL Professor UCD, Dept. of Animal Science	Development and Application of Mathematical Models in Animal Science and Nutrition
October 10	MATT WHEELER Professor University of Illinois, Dept. of Animal Science	Transgenic Livestock: Risks, Technology and Outlook
October 17	BART WEIMER Professor UCD, PHR-Vet Med	Genomes to Knowledge-New Options at UC Davis
October 24	PILAR ULLOA Visiting Scientist University of Chile	Transcriptome Analysis using RNA Sequencing of Zebrafish Muscle Tissue in Response to a Plant Protein Diet
October 31	CARRIE FINNO Post-Doctoral Researcher UCD, Vet Med	Genetic Aspects of Equine Neuroaxonal Dystrophy
November 7	JUAN MEDRANO Professor UCD, Dept. of Animal Science	Analysis of the Milk Transcriptome using RNA Sequencing
November 14	LARRY FORERO County Director UC Cooperative Extension, Shasta County	Performance and Economic Advantages of Wintering Beef Cattle in the California Foothill Range
November 21	ANDREA DRAUCH SCHREIER UCD, Dept. of Animal Science Exit Seminar: Ecology Graduate Group	Adventures in Polyploidy: Genome Duplication and Gene Flow in the Octoploid White Sturgeon, <i>Acipenser transmontanus</i>
November 28	SERGIO ARISPE UCD, Dept. of Animal Science Exit Seminar: Animal Biology Graduate Group	The Effect of Phytoestrogens on Basal and GnRH-Induced Gonadotropin Secretion from Ovine Pituitary Cells in Culture
