

# SPRING

## DEPARTMENT OF ANIMAL SCIENCE SPRING 2005 SEMINAR SERIES

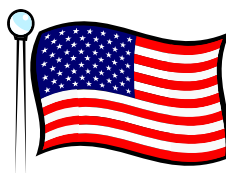

Weir Room (2154 Meyer Hall), 12:10 p.m. - 1:00 p.m.

<u>DATE</u>	<u>SPEAKER</u>	<u>TITLE</u>
April 4	<b>Cheryl London</b> School of Veterinary Medicine, UC Davis Host: Rick Topinka	Receptor tyrosine kinase dysfunction in canines
April 11	<b>Nicole Baumgarth</b> School of Veterinary Medicine, UC Davis Host: Andrea Schmitz	Challenges to an old dogma: Innate immune signals regulate virus-specific B cell responses
April 18	<b>Kevin Williamson</b> Department of Animal Science, UC Davis Host: Juliana Hillegass	Sex-reversal in Central Valley Fall Chinook: altered sexual differentiation or mutation?
April 25	<b>Lars Tomanek</b> Department of Animal Science, UC Davis Host: Anna Smith	Stress proteins: evolutionary variation and ecological importance
May 2	<b>Elizabeth Maga</b> Department of Animal Science, UC Davis Host: Beth Roberts	Genetically engineering ruminant milk for animal and human health
May 9	<b>Cindy Batchelder</b> Department of Animal Science, UC Davis Host: Brittany Kammerer	Cattle Cloning: Problems and Promises
May 16	<b>Daniel Arrieta</b> Departments of Animal Science and Environmental Toxicology, UC Davis Host: Ann Leed	TBA
May 23	<b>Susan Swanberg</b> Department of Animal Science, UC Davis Host: Jesse Warntjes	Telomere Length Regulation in the Domestic Chicken

May 30

**Memorial Day**

June 6

**Archie Clutter**  
Monsanto Company  
Host: Rodrigo Gulate

Implementation of Marker-assisted Selection in Commercial Swine Populations
