

**DEPARTMENT OF ANIMAL SCIENCE**  
**WINTER 2016 SEMINAR SERIES**  
 Weir Room 2154 Meyer Hall 12:10pm-1:00pm

<b><u>DATE</u></b>	<b><u>SPEAKER</u></b>	<b><u>TITLE</u></b>
January 11	<b>LYDIA GARAS</b> UCD Dept. of Animal Science Exit Seminar: Animal Biology Graduate Group	Got (hLZ) Milk? Using Lysozyme Transgenic Goat Milk to Treat Gastrointestinal Disease
January 25	<b>WOODY LANE</b> Livestock Nutritionist and Forage Specialist, Lane Livestock Services	Fee-Based Producer Discussion Groups: An Effective and Sustainable Program for Delivering
January 28	<b>CHEN-CHE JEFF HUANG</b> Postdoctoral Fellow, NIDDK, National Institutes of Health	Decipher the regulation of adrenal cortex remodeling
February 1	<b>BENJAMIN RENQUIST</b> Assistant Professor, University of Arizona	Studies in Endocrinology to Address Societal Issues: Obesity, Global Warming, and Food Production
February 4	<b>ANNA DENICOL</b> Postdoctoral Research Associate, Northeastern University	Shaping pre-implantation embryonic development: roles of the canonical WNT signaling pathway and its antagonist Dickkopf 1 to regulate the cell differentiation program and survival of the bovine embryo
February 8	<b>OLAV OFTEDAL</b> Emeritus scientist, Smithsonian Environmental Research Center, Edgewater, MD	Sea Otter Nutrition
February 15	<b>HOLIDAY</b>	
February 18	<b>EDUARDO LEITE GASTAL</b> Associate Professor Southern Illinois University	"The Equine Model for Comparative Studies of Ovarian Function in Women."
February 22	<b>JENNIFER CHEN</b> Postdoctoral Scholar, UCD Dept. of Animal Science	Cooling Dairy Cows Efficiently with Sprinklers: Behavioral, Physiological, and Production Responses to Water Spray
February 29	<b>TBA</b>	
March 7	<b>TBA</b>	
March 14	<b>CLAUDIA ARNDT</b> Postdoctoral Fellow, Environmental Defense Fund, San Francisco, CA	Environmental Defense Fund's Sustainable Agriculture Initiatives
