

DEPARTMENT OF ANIMAL SCIENCE
FALL 2015 SEMINAR SERIES
 Weir Room 2154 Meyer Hall 12:10pm-1:00pm

<u>DATE</u>	<u>SPEAKER</u>	<u>TITLE</u>
October 5	KIRK KLASING Professor, UCD Dept. Animal Science	The Nutritional Costs of Immune Responses: Tradeoffs with Growth and Reproduction in Chickens
October 12	BOB TAYLOR Director and Professor, Division of Animal and Nutritional Sciences, West Virginia University	Unscrambling Chickens' Genetic Control of Oncogene Tumor Outcome
October 19	No Seminar	
October 26	FRANK MITLOEHNER Professor and Air Quality Extension Specialist, UCD Dept. of Animal Science	Sustainable Intensification: How to Satisfy the Rising Demand for Animal Protein without Depleting Natural Resources
November 2	NADIA SWANEPOEL Department of Animal and Wildlife Sciences, University of Pretoria, South Africa & UCD Dept. Animal Science	Amino Acids and Dairy cows: Limiting or Bioactive
November 9	PHILLIP JARDON Elanco Animal Health	The Vital 90 Days: An Assessment for Dairy Cattle
November 16	JAMIE SHERMAN UCD School of Veterinary Medicine Exit Seminar: Animal Biology Graduate Group	A Multidisciplinary Approach toward Advancing Black Bear (<i>Ursus americanus</i>) Population Health and Management in California
November 23	LESLIE ROCHE UCCE Specialist in Rangeland Management, UCD Dept. of Plant Sciences	Sustaining Working Rangelands – Engaging Stakeholders to Create Usable Science
November 30	TITUS BROWN Associate Professor, UCD Dept. of Population Health and Reproduction	Opportunities and Challenges in Data-Intensive Biology - A Forward-Leaning Perspective
